

Spiritual Expanse

For Personal Healing, Spiritual Growth and Soul Empowerment

One Year Journey of Birth, Death and Rebirth

*sustained engagement with your personal and spiritual evolution...
individually and in community
with celebration and ceremony!*

Re-turning - 8 times during the year* (Equinoxes, Solstices and Mid-points) for a day of teaching, experiential processes and **ceremonial celebration** with the seasonal cycle of nature and its reflection in our lives and our world.

- Nourish your Soul with Nature's wisdom, balance and ever-changing, abundant creativity within a sharing community.
- Dive deep into the ocean of consciousness, riding the waves of our daily life and activities while cultivating and deepening our connection to the still place which holds: the Soul's dreams, desires and **destiny** to live our life purpose.

To sustain the continuity of your journey between ceremonial circles, individual support for the questions and issues that arise is provided through individual sessions.
